Re: Davis Road Construction Project

Dear Wholesale Water Customer:

Construction on Davis Road for water transmission main improvements and relocation, as well as improvements to the Kochville Rd Raw Water Pump Station, has begun. Contract 1 is work related to installing connections at Pierce and Davis Rds. (Northern Connections), as well as those at Trautner Drive near Davis Rd. (Southern Connections). Contract 1 is expected to take place starting now and end in early June. Contract 2 will begin once connection points are available for use and should be substantially complete in December of this year. Contract 2 is the work between the connection points and at the Kochville Reservoir site. Depending on weather and demand, we may issue press releases and outdoor water bans for the system as a precautionary measure.

If you have any questions, please contact me at the Saginaw Water Treatment Plant (989) 759-1643.

Sincerely,

A handwritten signature in blue ink that reads "Paul D. Reinsch".

Paul D. Reinsch
Superintendent City of Saginaw
Water Treatment and Field Operations
